AYER'S CHERRY PECTORAL

For the Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

These preparations are offered to the public with the confidence that they will do for those who place themselves under their influence all that they are recommended to do. They are composed of the most powerful and healing vegetable substances in the world, and have been found by the experience of many persons publicly known, who have been restored from apparent hopeless prostration by their use, to be the most powerful and efficacious remedies for every kind and degree of lung complaint. Some of these cures have been so astonishing as to have attracted the attention of the public throughout the country. Many of the most distinguished men in the land have given their testimony to the world of the benefits they have received from these medicines. And not only in the formidable diseases of the lungs and throat, but in the lighter ailments which are the precursors of those fatal maladies, they are equally efficacious. Coughs, Colds, Hoarseness, Asthma, Bronchitis, Incipient Consumption, and indeed all those affections of the throat and lungs which are not incurable, yield to their influence. Many of our most distinguished citizens have given certificates of the astonishing effects of these medicines in their families, which we publish in our pamphlet form, and which we will send to any one who will call for them. And not only in the formidable diseases of the throat and lungs do these medicines exert a controlling influence, but in all those lesser ailments which are the precursors of those fatal maladies, they are equally efficacious. Coughs, Colds, Hoarseness, Asthma, Bronchitis, Incipient Consumption, and indeed all those affections of the throat and lungs which are not incurable, yield to their influence. Many of our most distinguished citizens have given their testimony to the world of the benefits they have received from these medicines

Notes of a Short Trip—the new city of Newburyport.

The enlargement of the territory of Newburyport, and its being incorporated into a city, has been a matter of much interest to the citizens for some time past. This town has increased in business and in population for several years past by the introduction of manufactures into the heart of the town, by the employment of steam as a motive power. The enlargement of the labor of the place has changed the character of the people very materially, and resulted in a great improvement in real estate both in price and in appearance.

The charter of the city contains a new feature, that the Mayor shall receive no compensation. This is precisely such a provision as suits the gentleman elected as the first Mayor, Gen. Caleb Cushing. Every body, the land over, knows that he is ambitious, a representative man he is in this line; but every body does not know the form in which his ambition manifests itself in his home. He is a man of great wealth, at least two handsome fortunes have descended to him by will, and he is enabled to be liberal, and he is so. He is the most public spirited man in his town, and liberal in his gifts and in the provisions he makes for the pleasure, entertainment and comfort of the town. No personal inconveniences are too great, no expenditures too large, for him when the reputation of his town or his friends are concerned. He is ready at any time to throw open his house to the public and turn his gardens and orchards into public pleasure grounds, and to furnish entertainment for all who occasions offer. His generosity to this public way is never stinted, and is not fitful but flows onward like a river. He is ready to work night and day, carefully and freely for his town.—As Mayor, he is out early in the morning on horseback with a watchful eye upon all that in any way demands the public attention. He enquires of men in every occupation and every locality and of every kind of association, of the wants of the city, and obtains suggestions from each and all, and is thus enabled to discharge his public duties to the city to great acceptance. He never forgets a person, however obscure, who has ever conferred upon him a personal favor, and he is sure in some way to bestow a mark of his approbation. These characteristics, and the reputation they have given him at home of being a noble hearted man, enabled him, when a whig, to command a large portion of the loco votes in his vicinity, and which now, while he is a loco of the old line, to get the votes of a large portion of the whigs whenever he requires them. Few men have the good sense to direct their ambition into a channel like this, and this course on the part of Mr. Cushing fully accounts in summing for his popularity at home! Out of this channel, this local circle, Mr. Cushing sustains the character, we think, and the reputation of an ambitious man—over anxious for place and too much in a hurry to be successful in reaching the point at which he aims. It has ever been with him that his position, however exalted, has only been deemed a round in the ladder of his ascent and furnishing the means of getting higher.

The enterprise of Newburyport, since it has been called specially to the improvement of the town, has projected a railroad to Georgetown, which is in full operation, and is to be extended to Haverhill. The road will increase the business of the place by connecting it anew with a thriving country. Its leading business interest continues to be that of the sea, and its great freighting ships go the world over. Its fleet of fishing vessels is large and prosperous, and the construction of these vessels gives a good healthy and profitable employment to many. Its next great interest is the manufacture of cotton. This it is which has effected the greatest revolution in the general character of the place and set in active motion many mechanical enterprises, which have proved prosperous.

The political change which the coalition, in this State, effected last year in the State officers, has caused the two editors of the "Union" here, a loco-coalition paper published here, to be rewarded with office. The chief, Edwin Lawrence, Esq., whose hand was accidentally shot off in Bangor while he was a resident of our city, has been appointed Register of Probate, and Mr. Bragdon, his assistant, has been appointed clerk to the Register. They have both nominally withdrawn from the "Union" but continue to furnish its principal matter.

The grand Floral procession, which could not appear on the glorious fourth, was out to-day, the fifth, in great numbers with a fine band of music and a splendid escort, and had a good enough "Independence Day" to suit any body. It was a beautiful and highly elaborated affair, which must have cost a vast amount of labor in the preparation, and which could not fail to gratify every beholder. The large company of little folks were entertained by the Mayor at his residence and allowed the freedom of his grounds.

The richness of this Floral display formed quite a contrast with a procession in the same place in the days of our childhood on the occasion of the visit of President Monroe. Then it was thought something very smart for every boy to wear a blue ribbonon on his hat and every girl a blue sash, but in this were a profusion of elegant wreaths of flowers and classical representations and fine mottos, and every variety of bouquets. Speaking of our early days, reminds us to say that we met upon the Mall, a venerable man, Mr. Edward Rackliffe, who opened in the front room of his bakehouse, the first Sabbath School in Newburyport. We attended that school, and the memory of it rushes upon our heart as we grasped the hand of the good old man whose pious zeal for the young led him to open it. Soon after this, each religious society in the town, established a class, and all the classes of all the societies met together in the Court House under their respective teachers and all the classes of the school marched in procession to their different places of public worship. Since then this institution of the Sabbath School has grown up to be one of little, if any less importance than the church itself: each religious society having in operation on entire school of its own. This little historical incident relative to Sabbath Schools may be of some interest to our youthful readers and with this we must close for to-day.

LIBERIA EMIGRANTS. A recent letter from Baltimore says that the colored population of that city are making preparations for a grand supper, to be given to their brethren who are about to take passage in the Liberia Packet, for the land of their forefathers. They number about seventy-five, and comprise the most respectable, useful and influential of their class in that city. Their departure will be the commencement of a new era in Liberian emigration, and should they make a favorable report, thousands will follow them.

☞ A business that is worth following is worthy of being advertised, and next to having one's stock covered by insurance, we believe the most important step is to advertise it to the world. There is nothing like keeping one's trade before the public, or one's name in such a prominent position that it may not be forgotten. A simple card in a single paper is better than none at all—for the name and the trade becomes associated in the mind, and the want of an article suggests at once the name of the trader.

☞ The City Marshal is pushing forward in the business of enforcing the liquor law. Two small parcels of liquor have been seized in a rum-den and destroyed, and the dealers in the article fined and sent to jail. The changed appearance in our city since the banishment of rum, by the new law, is very refreshing, and people are learning to take better care of themselves. Occasionally a man from the country, or some other place, complains of the difficulties or impossibility of procuring a drink of liquor, but beyond this the law works to a charm.

☞ The Boston Traveller expresses the opinion that the failure of Mexico to abide by its decree for the construction of the ship canal across the isthmus of Tehuantepec affords another small chance for a brush with Mexico: and this is just the thing, of all others, which many of our restless, fight-loving people would rejoice in. A fair excuse for another fight with Mexico, and thousands would flock to Tehuantepec, and revolutionize that State forthwith, and prepare it for a new State in the Union.

SUPPOSED RUNNING KILLED.—The Providence Mirror states that on Sunday night last, as a Mr. Green was going from Greenville to Woonsocket in a carriage, a man suddenly stepped from behind a bush, seized the horse by the bit and led him out of the road near the fence.—Mr. Green sprang from the wagon, and struck the man a heavy blow with his fist and killed him almost instantly.

FIREMEN'S JUBILEE.—The firemen and people of Hallowell are determined to try that Fourth of July over again, and are making arrangements for a Firemen's Jubilee, to come off in about two weeks. We are happy to learn from the Gazette that Mr. Glazier's poem will be repeated. The Battle of the Tubs will come off as announced for the Fourth, with an additional incentive to activity in the shape of a *Silver Trumpet*, worth $60—a prize to the victors.

DISCOVERY OF A NEW METAL.—Dr. Bergemann, in making some experiments with the Wochlerite and Enkolite from the zirkon-syenite of Brevig, in Norway, has separated a substance which, both in its oxidized state, as well as in its compounds, differs from all the known simple bodies. He has decided that it is a metallic substance, and has given it the name of donarium, after the Teutonic god Donar, the Northern Thor.

☞ As popular excursions are the order of the day, we think some enterprising man might secure a large party of our citizens to visit the White Mountains, by steamboat to Portland and thence by railroad to the White Mountain Station House. The excursion would be a delightful one, and might be effected at moderate rates.

☞ The Harmoneons have for two evenings past been greeted at their concerts with fashionable and appreciating houses. They will give their third and last concert in this city, this evening at the City Hall, on which occasion they will doubtless have a multitude of their friends present to listen to their sweet melody and to laugh heartily at their excellent fun.

☞ Charles W. Haskell, whose name is mentioned as among the wounded by the explosion on board the New World, in California, in our telegraphic despatch, is, we understand, the son of the late Capt Micajah Haskell of Belfast, and formerly of this city. He is a Bangor Boy.

☞ Profane swearing, as it is usually termed, threatens to become one of our national vices. Who that walks our streets is not familiar with the sound of irreverent and impious ejaculations from the very children playing around him.

☞ Mr. Healy, it is said, is advancing rapidly in Paris with his picture of Webster in the Senate of the United States. He hopes to return with it to this country during this or the succeeding month.

☞ Mr. Raymond's new daily paper, to be called the New York Times, will make its appearance by the 1st of September. It is to be a penny sheet of the largest class.

☞ Fine hay weather has been vouchsafed recently to the farmers in this vicinity. The crop of hay is very good.

☞ Mr. Webster arrived at New York on Thursday.

STREET PREACHING. The Rev. Mr. Tilton, of the Summer Street Methodist Episcopal Church, will continue to preach in or near West Market Square each Sabbath afternoon, (when pleasant) during the present month. Services will commence at 6½ o'clock.

Correspondence.

To the Editor of the Whig and Courier.

PORTLAND, July 17, 1851.

I was much pleased to see and read the account of the operation of the liquor law in Bangor, in your columns. And I was still more gratified in the perusal of your comments upon the same. It is well that there is one political paper in the State, that is not afraid to speak out in favor of the law, the end and aim of which is the welfare and happiness of the great mass of the people; one paper that does not stop to enquire, how will this new law effect *our* party i—as if mere party success was paramount in importance to the true interest of the entire community.

But my object is not to laud you for doing what it is the duty of all editors to do, whether chained to the jugernaut of party, or not.—I wish to say, that many of your remarks referred to, will apply equally well to the meridian of Portland. As you are aware, the virtues of the new law have been successfully and satisfactorily tested in this city. Vile compounds, denominated in the warrants, spirituous liquors, have been destroyed.

The law is almost bitter dose for many in this city, but it must be administered, and it will most assuredly work a cure of the many evils produced by their traffic.

I am pleased to learn that the good people of Bangor are about to make a suitable present to that champion of temperance, who has the great honor of having framed the present liquor law—NEAL DOW.

The people of Portland have discharged a moity of their debt or gratitude for his efforts in the cause of humanity, by electing him Mayor. That was a great triumph—a victory gained over the army of King Alcohol, whose whole force was drawn up in battle array, to defeat his election. Almost superhuman exertions were put forth by the enemy, to defeat it, but for once, THE PEOPLE triumphed, and Mr. Dow was elected by an overwhelming majority.

Not the people of Bangor—of Portland, alone, are under lasting obligations to him, but the entire population of the State. A generous confidence in them, leads me to predict that the day is not far distant, when they arising in the strength of their might, will confer upon him an honor which shall discharge a small portion of their debt of gratitude.

OBAH TUBBEE. The celebrated Indian chief, "Obah Tubbee," noted for his performances on the flute, is said by the Louisville Courier to be none other than Carey, a negro, or rather mulatto, who lived in that city some six or twelve years since. He was an excellent performer on the fife, flute and other musical instruments, and belonged to the old Louisville Guards, and when this fine company paraded he discoursed his music to the infinite delight of the crowds of urchins who "followed the soldiers." Carey thought it would prove more profitable to turn Indian, and for several years he has been "starring" it through the country as Dr. Obah Tubbee, giving concerts, &c. Carey the Courier remarks, has shown himself to be a worthy rival of Barnum in the humbugging line. He claims to be an Indian chief, and that his wife, who assists at his concerts, is an Indian Princess.

The Gardiner Fraud.

It is reported from Washington that the Grand Jury have found true bills against the two brothers named Gardiner for forgery and that bench warrants have been issued for their arrest.

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER.

TWO WEEKS LATER FROM CALIFORNIA.

ARRIVAL OF THE

BROTHER JONATHAN

AT NEW YORK.

238 PASSENGERS.

$500,000 in Gold!

HIGHLY IMPORTANT INTELLIGENCE.

MARKETS &C.

BOSTON, July 18.

The steamer Brother Jonathan, from Chagres 7th, arrived at New York last evening.—She has 238 passengers and $500,000 in gold.

Steamer California, from San Francisco, arrived at Panama with two weeks later news.

Business affairs are in a very depressed state.

Crime has fearfully increased.

Gen. Lane has been elected to Congress from Oregon by a handsome majority over Wilson.

The Isthmus generally free from sickness.

Two of the miscreants who were concerned in the murder on the Chagres river were shot in the Cathedral Plaza of Panama on the 30th ult.

The U. S. sloop-of-war Vandalia, Com. W. H. Gardiner, was at San Diego at anchor on the 17th of June. All well.

Five men were drowned in San Pueblo Bay on 29th of May. Their names were Dr. Reuben Knox of St. Louis, John Allen of Burlington, Vt., James F. Graham of N. C., nephew of the Secretary of the Navy, A. W. Davis of Maine and one Indian boy.

Gen. Moorehead's expedition, reduced to 45 men, left San Diego on the 11th ult. His destination is unknown.

A company of white men, under Capt. Irving, committed many outrages upon the inhabitants in Locke Angelos Valley. Citizens volunteered and went in pursuit, but the last account received is that the Indians of a certain Mission had destroyed Capt. Irving and his 11 men.

Terrance McManus, one of the Irish patriots whose escape from New South Wales had been known here some time previous, arrived here about the 5th inst., and has received a most enthusiastic reception by all classes. His arrival was celebrated by a public dinner, at which the Mayor presided, and which was attended by the Senators, Representatives and many of the most distinguished men of the State.—About the time of his escape, a like attempt was made by Smith O'Brien, O'Donohugh and Dorherty, but through treachery it failed.

The cap of the steam chest of steamer New World blew off while she was on her passage from Sacramento to this city on the 4th, the steam rushing out and killing two persons.—The wounded are Charles Yeomans of Mass., clerk of boat, Charles W. Haskell, Henry Brooks and Joseph Reynolds of Boston, Thomas Gaskill of Roxbury and several others.

Seven men were drowned at Parks' Bar last week. Their names are Chas. Lull, H. Moderburgh, Chas. Cox, M. Hodge, Sam'l Miller and two Frenchmen.

The attempts to burn the city had been too numerous to recapitulate, and too bold and malignant to allow any other interpretation than a determined plan to burn the city, but our citizens are vigilant.

Reports from the placers and the mines generally are favorable.

Agricultural prospects are very good.

On the 10th of June an Englishman named Jenkins was hung by the citizens of San Francisco for stealing! The affair created a tremendous excitement. He was tried in secret by a committee of twelve.

The Alta Californian remarks:—

"The trial and conviction of Jenkins was not the act of an inflamed and excited mob. The case was adjusted with calmness and deliberation—his guilt fully established and the penalty of death imposed by a set of men respected and esteemed by their fellows. It was the first case of lynching that has occurred at San Francisco. Jenkins is supposed to have come from a penal colony.

THE MINES.

There is more activity at this moment and more gold is probably being got out than ever before at any period in the history of the California mines.

Many new veins are being opened every day and new machinery is being put into operation all over the Southern mining regions.

In two mines Calaveras and Marchosa several veins will undoubtedly prove very highly productive.

Carson Creek mines have doubtless yielded more gold than any yet discovered.

The Stockton & Applawall mines, though raked more industriously have wholly failed.

MARKETS.

SAN FRANCISCO, June 14.

Flour very dull.

Brick in good demand and are likely to continue so.

Cement, Lime and Lime putty are better.

Dry Goods in less request.

Lumber—Sales have been large but the stock being ample prices have not been well sustained.

Seamen's wages high, and great embarrassment exists in regard to them and the enlist by no contracts. Generally vessels are dull, either for sale, freight or charter.

DEATHS IN CALIFORNIA.

Died on board steamer Gold Hunter, June 14th, Josiah Graves, a passenger, of Thomaston, Me.

Near Columbia, Toulumne Co., May 22d, Orlando B. Ryan, formerly of Edgcomb, Me.

WASHINGTON, July 16.

John C. Gardiner was arrested by U. S. Marshal last night, on matters relating to the alleged fraud.

N. Y. Markets.

MASSASOIT HOUSE,

ON THE BORDERS OF PUSHAW LAKE

JOHN H. HASEY

HAS erected a new, large and convenient Hotel on the borders of Pushaw Lake, one of the most desirable watering places in the State of Maine, for the accommodation of travelling parties of pleasure, invalids, and permanent boarders. The house has been built with special reference to this business, contains a large hall, and is thoroughly finished and amply furnished.

The distance from the City Hall of Bangor is seven miles over a good road. The house commands a splendid view of Pushaw Lake, with its beautiful green islands and its shores shaded with the dark forest.

Safe and swift sail boats for the accommodation of large parties, with experienced boatmen, are connected with the house, and are furnished with all necessary fishing apparatus for taking the White Perch, Pickerel, and other lake fish, which are abundant in the waters of the Lake.

Every attention will be paid to the wants and comfort of visitors, and parties may be sure of receiving full accommodations at any hour.

There are very few pleasant resorts near the city of Bangor, and it is the determination of the Proprietor of the Massasoit House that the excellence of his accommodations and the various means of promoting the pleasures and diversions of his guests shall compensate for variety elsewhere.

GROVER & BAKER'S
Patent Sewing Machine.
(Patented Feb 11th, 1851)
THE Inventors and Proprietors after a long time spent in perfecting an improving their invention and having now received United States Letters Patent on the same are prepared to offer for sale the exclusive Right of Territory for states Counties and Cities or Machines with the right to use. This is entirely an original invention and in all similar having ever been offered to the public, the right of the inventors is therefore contested. Our Machine by the use of two needles supplied with thread from spools forms a double stitch which will not open or ravel,—in fact a fast stitch. It is adapted to the sewing on all kinds of fabrics as also on leather in straight circular or other seams. It is capable of being worked at great speed and requires but little power. By means of the feed carriage which is compact and convenient the stitch may be regulated to any length. The needle stirks perpendicularly upon the table of the Machine, and affords an opportunity for sewing as far in from the edge of the cloth as may be desired. The Machine is worked by treadle hand or power is easily regulated and being compact and simple in construction is not liable to get out of order. We are confident that our Machine on trial will corroborate all the statements here made. The price of one of our Machines complete (which will be carefully packed to go to any part of the world) is one hundred and twenty five dollars.
